

What not to miss at EuroPCR 2017	Best of Innovators' Day	Stent - Save a Life!	Clinical Study Investigator – Video Spotlight - PCR TV Programme - Safety of coronary revascularisation deferral based on iFR and FFR measurements in stable angina and acute coronary syndromes. A pooled patient-level analysis of DEFINE FLAIR and IFR SWEDEHEART trials	Bioresorbable coronary scaffold technologies: statement from PCR	Best of Fellows' Course	Left main PCI in everyday practice	Hotline - PCR TV Programme - Benefit of evolutive dual antiplatelet therapy after acute coronary syndrome: the TOPIC (timing of platelet inhibition after acute coronary syndrome) randomized study	How to treat patients with popliteal and common femoral artery lesions	Clinical Study Investigator – Video Spotlight (ABBOTT) ABSORB China and Japan three year results
----------------------------------	-------------------------	----------------------	---	--	-------------------------	------------------------------------	---	--	--

Stents or scaffolds: relevant options for optimal patient outcomes? (Abbott)	Atherectomy for calcified coronary plaques	40 years of PCI: where are we going?	Out-of-hospital cardiac arrest: an acute problem requiring a multidisciplinary approach	Multimodality imaging for Valvular Intervention: the eyes of the valve team	What's new on Pharma	Don't be shocked by cardiogenic shock	Tricuspid regurgitation - PCR TV Programme	Device-based management in advanced chronic heart failure	Transradial approach for iliac interventions	Interventional management of acute heart failure	Focus NAP: Radiation safety in a day-to-day practice	Challenges in diabetic patients: EVOLving PCI's clinical outcome through innovative technologi (Alvimedica)	Practical approaches and novel technology to optimise left main procedure outcome (Medtronic)	Hypertension environment	Fully percutaneous abdominal aortic aneurysm treatment	Transcatheter valve-in-valve and valve-in-ring interventions	Wrap up: Lotus valve: expanding treatment options in real-world practice (Boston)	Cardioband: Clinical reality for mitral and tricuspid valve repair (Valtech)
--	--	--------------------------------------	---	---	----------------------	---------------------------------------	--	---	--	--	--	---	---	--------------------------	--	--	---	--

Cardiac regenerative strategies for interventionalist	Bioresorbable scaffolds: an evolving technology	What's new on China?	Management of multidistrict atherosclerotic patients and concomitant disease	Stop the clot: how to start a left atrial appendage programme	Wrap up: Symetis Accurate neo TF TAVI system: Demonstrating the unique self expendable valve technology (Symetis)	Strategies and devices for the treatment of complex artoiliac lesions	Catheter-based renal denervation	Bifurcation stenting	What's new ESC/EAPCI	Percutaneous mitral valve repair	BVS: reviewing the evidence and distilling the learnings (Abbott)	Highlight on Valvular Disease Programme	Highlight on Peripheral Intervention Programme	Round table Microport	How intravascular imaging can optimise PCI results	How to select the most appropriate treatment for long and calcified superficial femoral artery lesions
---	---	----------------------	--	---	---	---	----------------------------------	----------------------	----------------------	----------------------------------	---	---	--	-----------------------	--	--

Hilghlight on Intervention for Stroke Programme: Acute stroke - evidence for interventional treatment	Highlight on Coronary Interventions programme	Device-based interventional therapies for hypertension: Renal angioplasty and arteriovenous-fistula creation	Highlight on Heart Failure Programme	Highlight on Interventions for Hypertension Programme	Carotid stending: advanced and novel strategies	Potential pitfalls if TAVI in low-risk patients	Highlight on Clinical Research	Highlight on Best Abstract/PCR Got Talent Winner...
