

PERCUTANEOUS CARDIAC INTERVENTIONS TEXTBOOK

TIPS AND TRICKS OF NEW TECHNIQUES BEYOND STENTING

Edited by Manel Sabaté and Salvatore Brugaletta

2nd EDITION!

TABLE OF CONTENT

PART I - Tips & Tricks of Diagnostic procedures

Vascular access: evolving from femoral to distal radial artery - *Emmanuele Barbato* **NEW**
Groin closure devices - *Luis Ortega*
Intravascular Ultrasound - *Hector M. Garcia-Garcia, Gianluigi De Maria*
Intravascular ultrasound and the role of co-registration in daily practice - *Jacek Legutko* **NEW**
Physiological assessment techniques (FFR) - *Gabor Toth*
Physiological assessment techniques, resting indices, IFR - *Javier Escaned / Justin Davies* **NEW**
Optical coherence tomography - *Nieves Gonzalo*
Electromechanical mapping - *Pilar Jimenez-Quevedo*
Intracoronary thermography - *Kostantin Toutouzas*
Micro-circulation function assessment - *Josep Gomez-Lara* **NEW**
Fusion imaging for PCI and structural heart disease - *Rosana Hernandez-Antolin* **NEW**

PART II - Tips & Tricks of Therapeutic procedures

Calcified lesions treatment: (Rotablation, scoring/cutting balloon; shockwave) - *Michael Haude*
Laser technique - *Giampaolo Niccoli* **NEW**
Drug Coated Balloon - *Fernando Alfonso* **NEW**
Antegrade technique for chronic total occlusions - *Masahisa Yamane*
Retrograde technique for CTO - *Emmanouil S. Brilakis*
ADR technique for CTO - *Gerald Werner* **NEW**
Use of microcatheters and extension devices - *Neus Salvatella* **NEW**
Thrombotic lesions - *Dariusz Dudek*
SVG treatment - *Patrick Kay*
Retrieval devices - *Goran Stankovic*
Trans-septal puncture and percutaneous mitral valvuloplasty - *Lino Patricio*
Ventricular assist devices (IABP, Impella, Tandem Heart) and future developments - *Josep P. Henriques*
Patent foramen ovale closure (noble stitch) - *Achille Gaspardone*
Atrial septal closure - *Jochen Wöhrle*
Persistent ductus arteriosus closure - *Manuel Pan*
Paravalvular leak closure - *Eulogio Garcia*
Aortic coarctation treatments - *Fredy Prada*
Left atrial appendage closure - *Xavier Freixa* **NEW**
Balloon expanding valves - *Martine Gilard*
Self-expanding valves - *Marco Barbanti / Azeem Latib*
Transcatheter aortic valve implantation in difficult situations - *Didier Tchétché* **NEW**
TAVI in special scenarios: valve-in-valve; valve-in-ring - *Nicolas Dumonteil* **NEW**
Vascular access closure in TAVI procedures - *Nicolas van Mieghem* **NEW**
Neurological protection during TAVI - *Cesar Moris* **NEW**
Percutaneous mitral valve repair - *Ignacio Amat*
Percutaneous pulmonary valve implantation - *Carlos Ruiz*
Renal denervation - *Philipp Lurtz* **NEW**

PART III - Tips & Tricks of New developments **NEW**

New valves for aortic stenosis treatment - *Nicolo Piazza*
Percutaneous mitral valve replacement - *Josep Rodes-Cabau*
Percutaneous tricuspid valve repair - *Rodrigo Estevez-Loureiro*
Devices for heart failure treatment - *Pierfrancesco Agostoni*
Devices for refractory angina treatment - *Francesco Giannini*
