- Wednesday 14 December -

09:00 - 10:00
AL DANA
TRAINING ROOM
- UPPER
GROUND

Training Village

■ Training on TAVI

Sponsored by Medtronic

Attend this session if you want:

- To be introduced to the new CoreValve Evolut R technology
 - To practice TAVI into different types of anatomies with the Evolut R technology
 - To debrief post procedure(s) with our experts
 - To understand how better planning can contribute to shorter implant time with less risk of complications
 - To know how to choose the most adequate access route
 - To know how to achieve an ideal implant depth for optimal results
 - To know more about potential complications from sub-optimal implants
- 09:00 ➤ Technique of TAVI
09:30 ➤ Hands-on simulator on the implantation of the CoreValve Evolut R

10:00 - 11:00

■ **PCI optimisation: better PCI outcomes when using OCT and FFR**

Sponsored by St.Jude Medical

Trainer: Z. Piroth

Attend this session if you want:

- To get an overview of physiological assessment during PCI
- To better understand the growing role of OCT in PCI
- To discuss the role of OCT and FFR in your daily practice

- 10:30 ➤ Physiological assessment, the growing role of OCT in PCI - how I use FFR and OCT in my daily practice
Z. Piroth
- 11:30 ➤ Hands-on sessions on OPTIS integrated system, the first fully integrated cathlab OCT and FFR system that provides physicians with increased control and ease of use along with the new table side FFR/OCT and angio co-registration

■ **Meet the expert: case reviews on LAAO, ASD, VSD and PDA closures with Amplatzer devices**

Sponsored by St.Jude Medical

Trainer: J. DeGiovanni

Attend this session if you want:

- To have a comprehensive overview of Amplatzer clinical indications
- To share best practices
- To understand challenging cases
- To try our simulator

- 10:30 ➤ Case reviews, tips and tricks, Amplatzer devices use in left atrial appendage occlusion and coronary heart disease
J. DeGiovanni
- 11:30 ➤ Hands on Amplatzer products and simulator session

13:30 - 15:30
AL MAASA
TRAINING ROOM
- UPPER
GROUND

Training Village

■ **Portico: precise placement leads to optimal patient outcomes**

Sponsored by St.Jude Medical

Trainer: L. Sondergaard

Attend this session if you want:

- To learn about the latest clinical results from the St. Jude Medical Portico programme
- To learn about the Portico patient selection and imaging protocols
Hands-on session on the beating heart simulator

- 13:30 ➤ TAVI, precise placement leads to optimal patient outcomes
L. Sondergaard
- 14:30 ➤ Hands-on session: come and join us to see how Portico, a re-capturable system, is changing the game in positioning accuracy and solving complex cases on the beating heart simulator

- Wednesday 14 December -

09:30 - 10:30

■ Advantages of transradial intervention

Sponsored by Terumo

Trainer: T. Cuisset

Attend this session if you want:

- To learn advanced tips and tricks to perform a transradial procedure
- To learn the management of main difficulties (puncture, navigation, catheter selection...)
- to practice by using a transradial intervention simulator and radial puncture simulator

13:30 - 14:30
AL MURJAN
TRAINING ROOM

■ Advancement in transradial intervention

Sponsored by Terumo

Trainer: J. Fajadet

Attend this session if you want:

- To learn the management of main difficulties (puncture, navigation, catheter selection...)
- To learn advanced tips and tricks to perform a transradial procedure
- To practice by using a transradial intervention simulator and radial puncture simulator

15:30 - 16:30

■ Tips and tricks of CTO

Sponsored by Terumo

Trainer: S. Sumitsuji

Attend this session if you want:

- To be able to identify the pathologic and clinical considerations which are associated with successful recanalisation of chronic total occlusions
- To discuss best practices, tips and tricks, in crossing chronic total occlusions especially antegrade and retrograde approach
- To practice and hands-on in CTO and different bifurcation models

13:30 - 14:30

■ Treating complex cases: the transradial approach

Sponsored by Terumo

Trainer: M.C. Morice

Attend this session if you want:

- To learn advanced tips and tricks to perform complex transradial procedure
- To learn the management of main difficulties (puncture, navigation, catheter selection...)
- To practice by using a transradial intervention simulator and radial puncture simulator

- Thursday 15 December -
